**Subject:** EPA Draft SOW for the Stibnite Mine Site  
**Attachments:** DraftStibniteSOW 7\_3\_19.pdf

Hello, everyone. I have attached EPA's first draft of the statement of work for the Stibnite Mine RI/FS. The USFS, EPA and IDEQ have not yet worked out the details of the agencies' roles at the Site. The current draft (with the exception of the "Oversight" section) reads as if EPA is the sole agency involved. The SOW will be modified to reflect IDEQ and USFS' roles and decision making authority once the agencies have come to agreement on how we will work together and with Midas. Also, IDEQ may want to edit the "Oversight" section language. I drafted language on federal and state authorities as a place holder.

Enjoy the holiday!

- Elizabeth
